PROJECT INFORMATION

PROJECT STATUS & SYSTEM NOTES

11/3/2016 - Meeting between SRWCB and the water system to discuss a revised scope of work for the planning project. More emphasis will be put on drilling 3 shallow test wells. **8/16/2016** - CRWA submitted a completed feasibility study FAAST application for treatment or a new well on 8/15/2016. **4/8/2016** - Funding application is nearly complete. **2/22/2016**-DE states that a revised COM is "NOT ADVISED, THEY HAVE NOT COMPLETED A FEASIBILITY STUDY NOR HAS IT STARTED YET (OF NO FAULT OF THEIR OWN - IS DUE TO FUNDING SNAFUs). METER PROJECT WILL COME FIRST BEFORE FEASIBILITY. 2018 MIGHT BE A GOOD DEADLINE FOR FEASIBILITY STUDY TO BE COMPLETED". **1/21/2016**

8/3/16: Water system is evaluating potential consolidation with another PWS. 6/24/2016: Construction will be able to be completed by the end of the year. 4/29/16- LPA Received New Well Project SRF 14C107 Plans and Specifications for Review. Water System is soliciting contract bids for well construction. 1/29/16- LPA Received New Well Project SRF 4/29/2016: System was issued a new Compliance Order in April 2016. 3/7/2016: System will be issued new Compliance Order by the end of the month. 12/11/2015-The water system plans to complete pilot testing for POU alternatives by **11/17/2017**: No changes reported. **9/6/2016**: Gold Beach Park tested a well on their property for arsenic that is currently used to supply water to a storage tank in case of a fire. This well was tested in February 2016 for arsenic and it was found to have an arsenic level of 2.6 ug/L. Gold Beach Park has not been responsive to compliance orders issued to it. A new compliance order has been drafted by the LPA and was reviewed by the DE on 9/6/2016. Unknown when the compliance order was issued to the water system. Issued a COM on 9/10/2015, but they may still need to issue a citation with fines. **6/27/2016**: Water system is not complying with compliance order that was issued 9/2015. Wendy spoke with LPA on 6/27/2016 to discuss the possibility of re-issuing an amended com and/or issuing a citation with fines for their non-compliance. Not receiving any PN for the arsenic violation and don't believe they are issuing Do Not Drink notices. Last sample was collected on 1/26/2016 - 18 ug/L. **1/13/2016** Water system has been notified to test arsenic levels in a second well on the property. If the water system does not conduct water testing for arsenic on **12/7/2016**: Pending pump test and water quality samples from the newest well. **11/17/2016**: Miller's Hill School is developing a plan to characterize nitrates in their newest well. **9/6/2016**: Per Stantec Engineering, the company performing work at Miller's Hill School, the construction project for Miller's Hill School began in September and was put on hold by the California Division of State Architecture from December 2015 to June 2016. Construction has re-started and is nearing completion. The project includes installing a shutoff valve Well #4 (the well with consistently high arsenic levels) to remove it from the potable water supply and converting it to an irrigation well. Potable water is currently provided by Rimrock Water Company of Placerville, CA. I am meeting with the school Superintendent and Stantec construction to discuss the current status of their water supply. **8/2016**: Wendy and DE has been advising the LPA to have the school inactivate Well #4 and use it for irrigation only. The LPA is still evaluating whether the school will seek blending or inactivate Well #4. 6/14/2016: Latest tests show 6.7 arsenic level for well #4. RAA is not below MCL yet. **2/5/2016**-Well #4 is the well that has arsenic values consistently above the arsenic MCL. However, Miller's Hill School has been providing bottled drinking water to students and staff since 2014. The latest CCR report states "All staff and students are drinking only bottled water provided by the school" and "Miller's Hill School has received Prop. 84 funding to replace the drinking water well and associated infrastructure". I called Miller's Hill School today and they are preparing a statement for me that details when the school switched to bottled drinking water. Miller's Hill School

RTC DATE	RTC BASIS

EPA NOTES

Not Likely
to meet
work plan
deadlines

PWS does not seem likely to meet July 2018 RTC. What additional
measures can be comitted to mitigate the protracted RTC?

X

What is the proposed solution and what is the time frame for necessary
activities.

What is the proposed solution and what is the time frame for necessary
activities.

Needs an RAA update in column R. Can the arsenic violation be RTC'ed?

<p>12/12/2016 - Water system is working with well driller to complete two production wells. There are quality issues with the wells and the parties are working out the details. 11/7/16 update: Well driller approved to continue development of two completed wells to improve quality and to retest. 8/16/16 update: Both wells constructed, but there are construction defects that are being addressed by the consultant with the well driller. One well has ND arsenic, the other 28 ug/L, based on a single sample during well development. Wells were out of vertical alignment and produce significant turbidity. If redevelopment does not result in reduced turbidity, wells may have to be rejected. OLD UPDATES: 3/4/2016: This system is under court ordered receivership and the court is monitoring progress toward</p>
<p>11/7/16 update: DDW developing response for re-evaluation of PWS classification; 8/16/16 update: Citation with rescindable fines issued 5/16/16. CAP submitted by WS on 6/24/16. Fines rescinded on 6/27/16. WS is requesting re-evaluation of their PWS classification as a CWS (mostly seasonal usage second homes). OLD UPDATES: Water system evaluating alternatives. NOT using state funding. 9/17/15 update: System consultant contacted DDW on 8/28/15</p>
<p>11/7/16 update: No change in status. 8/16/16 update: WS continuing proposed arsenic sampling study. 6/14/2016: Data is being obtained for 4th Q 2015. During 1st Q 2016, the operator found Wells 2&3 electrical controls had been damaged, and hence wells were inoperable. Samples could not be collected, and no M/R violation will be issued since the wells were inoperable. We have been advised that samples have been collected for the 2nd Q 2016, and results are pending. 1stQ2016 result for Well 1 was ND, potentially due to the pumping status of the well. Specifically, the operator is studying the possibility that the arsenic concentration reduces with pumping.</p> <p>Schedule:</p> <p>May - July 2016: Arsenic Sampling Study (testing arsenic during pumping cycle to evaluate changes in concentration)</p> <p>August: Treatment design pending results of study will entail either a blending tank & controls or AdEdge Filtration Treatment.</p> <p>December 2016: Compliance via installation of equipment (treatment or blending tanks)</p>
<p>11/7/16 update: the Zonneveld system was permitted as two independent CWSs via the July 2016 permit (DDW identified the two wells were not physically connected & there were two independent distribution systems). The Zonneveld-Cerini Water System (CA1000627) is now RTC effective with receipt of the 7/14/16 POU data showing ND. The Zonneveld-Cedar Water System (1000369) needs one additional round of sampling (4th Q) to demonstrate 2 consecutive QRAA of compliance. 8/16/16 update: Results are ND for each POU device. RTC estimated by end of 3rd Q 2016. Domestic water supply permit issued for POU July 2016; 6/14/2016: Results are ND for each POU device so far. OLD UPDATES: 3 units have been installed and are in process of 1-year pilot study. 5/11/15 update: 1-year pilot study completed. DO awaiting pilot study report. 7/29/15 update: Draft pilot study report received 7/17/15 and DO</p>
<p>11/7/16 update: System will be submitting request for POU piloting soon; 8/16/16 update: No change in status 6/14/2016: The system is evaluating the installation of ArsenX as POE treatment. They plan to have the POE installed and operational by the 12/31/16 deadline. 7/31/15 update: 4QRAA = 14 ug/L. Agree that revised CO is appropriate.</p>
<p>11/7/16 update: No change in status. DDW evaluating compliance status with CO and will take appropriate followup action. 8/16/16 update (NEW CO issued 3/24/16) CO issued based on single samples collected in 2013, 2014 and 2015, all results exceeding the arsenic MCL. WS has had significant failure to monitor quarterly. CAP approval dated 7/19/16 requires Q monitoring.</p>
<p>11/7/16 No change in status. 8/16/16 update: Funding agreement issued to FCSA 30/32 on 8/9/16 for planning to evaluate groundwater for FCSA 32/Cantua Creek. CCV still proposes to consolidate with FCSA 32 as part of the construction project. 6/14/2016: Proposed solution is now evaluating groundwater for the Cantua Creek community. New funding agreement to change the scope of the planning study is under development, and should be issued in the next month or two. That project would have an 18 month timeline, and would include a test well and design of two completed wells and distribution system. DWR may be funding distribution system replacement separate from the DWSRF project. OLD UPDATES: We believe this system will participate in a consolidation project currently in an SRF</p>

12/12/2016- Project is on schedule. Water treatment phase is being advertised. 11/7/16 update: No change in status - project continuing per schedule **8/16/16 update:** Funding agreement amended 4/25/2016 to extend deadline for project completion to 3/21/18. Arsenic treatment soon to go to bid; **6/14/2016:** the RTC date of 3/21/2018 is not in the 2009 compliance order. **5/11/15 update:** Pilot study completed and arsenic treatment vendor selected.. Design of treatment underway. **7/29/15 update:** Well 6 approved to operate with initial arsenic at 9 ug/L. Blending with existing high arsenic wells. As pilot completed & DDW approved selection of treatment by letter dated 4/22/15. Design underway. Project FA provided deadline of 3/22/16 for completion, however CCSD will be requesting extension. It is 7/22/16- Keeler now has a D1 certified operator and is looking for a T1 operator to hire. They are maintaining their POU units and sending the LPA monthly reports. They now have 40 POU devices installed out of 43 active service connections. POU results are still ND. 4/22/16-New Board Members are addressing compliance order timeline. 2/5/2016-Approximately 40-50 POU's installed out of 80 service connections (service connection capacity max. not all lots are occupied). 3-5 samples are collected per month, so every unit is sample 1/yr.; results are ND and no spikes have been detected due the county requiring the filters to be changed out annually; problem is that the board quite in December 2015 and so currently there is not certified operator. Funding agreement needs a signature to be executed and the Board; quarterly source sampling is still be conducted; PN is being done quarterly. 11/20/2015-The 300k funding agreement was for centralized treatment alternatives with costs research, and drilling a test well to see if they can get a well with less arsenic. The KCSD Board failed to sign the agreement. Sean's office might have more info on where they are in the process and if they are still eligible for this funding package – probably not, because it's been several years now. Every POU device is tested annually and results have been ND. Although they use the Isolux POU devices and media which have not been NSF 53 approved. The majority but not all homes have devices. Previous

12/12/2016 - No funding updates 12/16-second office hearing on 11/30/16 for updated CAP from the system. Expecting an update by end of 12/16 for updated timeline and funding options for compliance. 9/6/2016: A revised CAP was submitted (7/19/16). The Water System is planning to conduct cycle tests on the well and determine depths of arsenic and the potential installation of a packer to isolate arsenic zones. The Water System also plans to evaluate POU as another potential option 6/16- system given until 7/15/2016 to provide new CAP since they will be not connecting

11/09/16 (JSD): Due to RCSD's concerns about the O & M cost of the consolidation pipeline and issues related to getting easement for the pipeline, consolidation of Lands of Promise is no longer part of the RCSD regional consolidation project. LOP is going to complete a separate planning application via FFAST which will include evaluation of other alternatives in addition to consolidation with RCSD. 08/03/16 (JSD): During phase 1 of the RCSD's regional consolidation project (expected to start in 2017), other alternatives (new well, treatment, etc.) including consolidation will be evaluated to select an alternative for construction. RCSD has expressed concerns over the O & M cost of the long consolidation pipeline to Lands of Promise. 6/10/2016 (NJG) - SWB OCC will be consulting with Kern County's legal counsel about funding agreement terms and conditions. They continue to have liability concerns and it is unclear how long the negotiations will take. County is a third party to the project and is only acting as a mechanism to route grant funds. County does not own or operate the water system. RTC date is unclear. 04/28/16 (JSD): The State Board soon plans to issue a funding agreement to Kern County to administer the P84 funding project. 04/28/16 (JSD): Review of draft plans and specs on hold since they are incomplete. Draft PDR3A was approved by letter dated December 1, 2015. Test Well Completion report was approved by letter dated April 13, 2016. Amendment to Funding Agreement to

11/09/16 (JSD): draft plans and specs have been received and are under review by the District Office. Deadline for completion of the planning project is 12/31/16. A conf. call was held on 11/08/16 to go over the pending items to complete the planning project. 08/03/16 (JSD): Per email communication in July 2016 with GEI consultants, draft plans and specs are under preparation and will be soon submitted to DDW for review. Project completion deadline is 12/31/16 for the P84 planning project. 04/28/16 (JSD): Review of draft plans and specs on hold since they are incomplete. Draft PDR3A was approved by letter dated December 1, 2015. Test Well Completion report was approved by letter dated April 13, 2016. Amendment to Funding Agreement to extend the planning project completion date to December 31, 2016, issued to Rosamond CSD on April 25, 2016; waiting for RCSD to return the signed amendment to the State Board. 01/19/16 (JSD): Draft plans and specs for the consolidation project received on Dec. 31, 2015; the

11/09/16(JSD): Drilling of Test Well Nos. 2 and 3 was completed in October 2016. Initial water quality results indicate that Test Well #3 would be a viable source of supply with satisfactory water quality. A pump test will be soon conducted to determine yield of the well. 08/03/16 (JSD): BLM has recently given approval to drill the test wells; the wells are expected to be drilled by the end of thi year and target is to complete the P84 planning project by April 16, 2017. 04/28/16 (JSD): NV5 and Hungry Gulch are working with BLM to acquire easement to drill test wells; application has been submitted to BLM. Funding agreement has been amended to extend the completion deadline to April 16, 2017. 01/19/16 (JSD): Due to excessive cost of purchasing the land from the private property owner and not having the option of buying the easement, DFA and DDW stopped NV5 to pursue this option. DDW is in contact with BLM to check if BLM would allow to drill on its land; BLM is developing a guidance document for allowing drilling wells on its land and the document is in the process of being finalized and is expected to be available by the end of February 2016. Current P84 funding agreement expired on 12/31/2015; DFA will consider extending the funding agreement if there is a solid option to pursue. 10/05/15 (JSD): NV5 Engineer is Negotiating with the property owner to answer his questions and

11/09/16 (JSD): Sunset Apartments is part of the NEWD P84 construction funding project. Discussions between DFA and NEWD are in progress to discuss completing the project. A new funding agreement will be issued by DFA to NEWD depending upon the outcome of the discussions. 08/03/16 (JSD): In July 2016, SWRCB-DFA issued a letter to NEWD about termination of the P84 funding agreement that expired in May 2016. Waiting for response from NEWD to complete the arsenic improvement project. NEWD's attorney has contacted the SWRCB to inquire funding for connecting Sunset Apartments to NEWD without first completing the arsenic project. 04/28/16 (JSD): In a recent email communication April 2016, Attorney General's Office has approached NEWD to restart the construction project and complete the construction. 01/19/16 (JSD): Construction project is on hold due to litigation between NEWD and contractor, Clarke Bros., Inc. 10/05/15 (JSD): Due to litigation between NEWD and contractor, the construction project

11/09/16 (JSD): P84 construction funding project has been completed. Project completion documents are under preparation by DFA. Two new wells are successfully running. The water system is expected to be in compliance with the arsenic MCL after the 4th quarter of 2016. 08/03/16 (JSD): Construction project is over 90% complete. Interim apporval to use the newly drilled Wells 03 and 04 was given on June 7, 2016. Expected to achieve full compliance with the arsenic MCL in the 4th quarter of 2016. 04/28/16 (JSD): Construction project is about 75% complete. 01/19/16 (JSD): Construction of the project is in progress; about 25% completed. 10/05/15 (JSD): First bidding of the project

11/09/16 (JSD): Due to RCSD's concerns about the O & M cost of the long consolidation pipeline and issues related to getting easement for the pipeline, consolidation of William Fisher Memorial Water Company is no longer part of the RCSD regional consolidation project. RCSD is the court appointed receiver of William Fisher and will evaluate other alternatives (including POU treatment devices) under a separate funding project. 08/03/16 (JSD): During phase 1 of the RCSD's regional consolidation construction funding project (expected to start in 2017), other alternatives (new well, POU treatment, etc.) including consolidation will be evaluated to select an alternative for construction. RCSD has expressed concerns over the O & M cost of the long consolidation pipeline to William Fisher. 04/28/16 (JSD): Review of draft plans and specs on hold since they are incomplete. Draft PDR3A was apporved by letter dated December 1, 2015. Test Well Completion report was approved by letter dated April 13, 2016. Amendment to Funding Agreement to extend the planning project completion date to December 31, 2016, issued to Rosamond CSD on April 25, 2016; waiting for RCSD to return the signed amendment to the State Board. 01/19/16 (JSD): Draft plans and specs for the

12/12/2016-DFA attempting to negotiate with Cal Water to accept FA on behalf of RSMWC. 11/09/16 (JSD): According to DFA, Kern County has concerns about signing a funding agreement on behalf of RS MWC since RS MWC does not have proper legal formation documents. A conf. call was held on October 25, 2016 among DFA, DDW and RS MWC to discuss RS MWC becoming a legal entity. RS MWC has requested technical assistance to complete this item. DFA is looking into the funding mechanism to do this. 08/03/16 (JSD): Issuance of funding agreement is pending with the State Board; trying to address comments from the Kern County Counsel. 04/28/16 (JSD): The State Board soon plans to issue a funding agreement to Kern County to administer the P84 funding project. 01/19/16 (JSD): Due to various concerns of Kern County (mainly liability for cost increase), the issuance of funding agreement has been

Please provide updated RAA as soon as possible. Is the new well considered a new source or, is it blending with other sources? With the new, compliant, source, this PWS should have been RTC'ed with the new source.

What is the proposed solution and what is the time frame for necessary activities.

What is the proposed solution and time frame for this system? This system has been trying to find a funding solution for the past year, at least. What can be done to expedite this process?

11/09/16 (JSD): FTP is part of the NEWD P84 construction funding project. Discussions between DFA and NEWD are in progress to discuss completing the project. A new funding agreement will be issued by DFA to NEWD depending upon the outcome of the discussions. 08/03/16 (JSD): In July 2016, SWRCB-DFA issued a letter to NEWD about termination of the P84 funding agreement that expired in May 2016. Waiting for response from NEWD to complete the arsenic improvement project. NEWD's attorney has contacted the SWRCB to inquire funding for connecting Fountain Trailer Park to NEWD without first completing the arsenic project to provide water with lower arsenic concentration than the Fountain Trailer Park well. Bottled water currently being provided under the CAA funding project may be discontinued if that happens. 04/28/16 (JSD): In a recent email communication April 2016, Attorney General's Office has approached NEWD to restart the construction project and complete the construction. As an interim solution bottled water is being provided to residents. 01/19/16 (JSD): Construction project is on hold due to litigation between NEWD and contractor, Clarke Bros., Inc. 10/05/15 (JSD): Due to litigation between NEWD and contractor, the construction project is on hold.

11/09/16 (JSD): draft plans and specs have been received and are under review by the District Office. Deadline for completion of the planning project is 12/31/16. A conf. call was held on 11/08/16 to go over the pending items to complete the planning project. 08/03/16 (JSD): Per email communication in July 2016 with GEI consultants, draft plans and specs are under preparation and will be soon submitted to DDW for review. Project completion deadline is 12/31/16 for the P84 planning project. 04/28/16 (JSD): Review of draft plans and specs on hold since they are incomplete. Draft PDR3A was approved by letter dated December 1, 2015. Test Well Completion report was approved by letter dated April 13, 2016. Amendment to Funding Agreement to extend the planning project completion date to December 31, 2016, issued to Rosamond CSD on April 25, 2016; waiting for RCSD to return the signed amendment to the State Board. 01/19/16 (JSD): Draft plans and specs for the consolidation project received on Dec. 31, 2015; the

9/16- Will be connecting to Lamont (not Greenfield) -signed consolidation agreement with Lamont done. Extension of Planning for one year completed. 6/16-working on consolidation agreement. Develop plans and specs - one more year of planning - needs an extension. In addition will evaluation a connection to Greenfield. 11/15-working on

11/09/16(JSD): Boulder Canyon is part of the Hungry Gulch MWC's funding project. Drilling of Test Well Nos. 2 and 3 for Hungry Gulch was completed in October 2016. Initial water quality results indicate that Test Well #3 would be a viable source of supply with satisfactory water quality. A pump test will be soon conducted to determine yield of the well. 08/03/16 (JSD): BLM has recently given approval to drill the test wells; the wells are expected to be drilled by the end of thi year and target is to complete the P84 planning project by April 16, 2017. 04/28/16 (JSD): NV5 and Hungry Gulch are working with BLM to acquire easement to drill test wells; application has been submitted to BLM. Funding agreement has been amended to extend the completion deadline to April 16, 2017. 01/19/16 (JSD): Due to excessive cost of purchasing the land from the private property owner and not having the option of buying the easement, DFA and DDW stopped NV5 to pursue this option. DDW is in contact with BLM to check if BLM would allow to drill on its land; BLM is developing a guidance document for allowing drilling wells on its land and the document is in the process of being finalized and is expected to be available by the end of February 2016. Current P84 funding agreement expired on 12/31/2015; DFA will consider extending the funding agreement if there is a solid option to pursue. 10/05/15 (JSD):

12/12/2016- Construction application is being processed. 11/09/16 (JSD): P84 planning prjct has been completed. The water system is in the process of completing a construction funding application. 08/03/16 (JSD): Planning project is essentially complete. The water system is working on filing the construction funding applicaton via FFAST. Environmental Review Unit of SWRCB is working on addressing the comments received on the environmental documents. 04/28/16 (JSD): Plans and specs are almost final. CEQA and NEPA documents being completed. Project completion deadline is 06/30/16. 01/19/16 (JSD): The funding agreement has been amended to extend the project completion date to 6/30/2016 and to provide some additional P84 funding. Additional time and funding required to address environmental review required by CEQA and NEPA. 10/05/15 (JSD): The funding agreement was amended to

Since planning study has completed, new compliance order with specified RTC date should be issued.

What is necessary to ensure that this system completes their construction application?

<p>01/09/17: DDW is working on issuing a revised compliance order to Lucky 18 on Rosmaond, LLC. The new compliance order will be issued before 03/31/2017, with a compliance deadline of May 29, 2018. 11/09/16 (JSD): draft plans and specs have been received and are under review by the District Office. Deadline for completion of the planning project is 12/31/16. A conf. call was held on 11/08/16 to go over the pending items to complete the planning project. 08/03/16 (JSD): Per email communication in July 2016 with GEI consultants, draft plans and specs are under preparation and will be soon submitted to DDW for review. Project completion deadline is 12/31/16 for the P84 planning project. 04/28/16 (JSD): Review of draft plans and specs on hold since they are incomplete. Draft PDR3A was approved by letter dated December 1, 2015. Test Well Completion report was approved by letter dated April 13, 2016. Amendment to Funding Agreement to extend the planning project completion date to December 31, 2016, issued to Rosamond CSD on April 25, 2016; waiting for RCSD to return the signed amendment to the State Board. 01/19/16 (JSD):</p> <p>3/7/2016: We have 5 quarters of sampling from well that exceeded the arsenic MCL indicating the well has dropped below the MCL. In addition, the system has been blending the two sources of supply in a storage tank before going to customers. The system has not been permitted for the blending, but the District will be working on a permit amendment for the blending treatment and require monthly treated sampling from the blending compliance point. 10/15-AR with Self Help working on submitting FAAST application for consolidation with East Niles. Well 3 went dry</p> <p>12/16-working with the City for consolidation - had mtg on 12/9/16. Public mtg scheduled for 2/17 with school. 6/16 - Mandatory consolidation letter sent out 6/16. Solution will be consolidation with City of Bakersfield. Currently in planning study with 11/16 planning agreement deadline. Deliverables: plans and specs, enviro, consolidation agreement with City of Bakersfield. 10/15-test well does not meet arsenic or radiological MCLs - therefore, a new well will not be a viable solution. Meeting in late 9/15-DDW will be issuing a Pre-Consolidation letter for a consolidation with City of Bakersfield. If necessary, DDW will mandate consolidation with City of Bakersfield which was the original solution for the project. After new personnel at the City - the consolidation was cancelled due to a fear of losing Charter City status. Plans and specs for this alternative were already prepared (90%) for this alternative. Pre-Consolidation letter to go out in 10/15.</p>
No
<p>12/12/2016 - No funding updates. 6/16- completed piloting, Waiting for report on findings due 6/30/16. POU's will be self funded. 10/15-Piloting 2 POU devices in homes - planning to install POU devices on all 16 homes to meet Arsenic MCL.</p>
<p>11/09/16 (JSD): draft plans and specs have been received and are under review by the District Office. Deadline for completion of the planning project is 12/31/16. Plan to install POU devices and return to compliance. 9/6/2016: The office hearing was conducted in Bakersfield on 10/1/15 and the system submitted a CAP which we received a revised and updated CAP on 10/8/15. The system was informally approved for CAA funds for the POU project. The system is still waiting on the formal agreement from DFA, but given approval to begin incurring expenses. The POU pilot devices (3</p>

Please update the proposed solution and consider for RTC.

It is presumed that this PWS is part of the Rosamond consolidation project and the planning study is now compled. Since planning study has completed, new compliance order with specified RTC date should be issued.

What is the timeframe for the pilot study, does the PWS actually need another 18 months to install 14 more POU's?

@ DFA - please update the fungin columns for this system.

Did PWS meet the compliance targets?

11/09/16 (JSD): After bidding, first phase (consolidation pipeline work) of the construction contract has been awarded. A pre-con meeting between QVWD and contractor was held on October 26, 2106. Construction work is expected to start shortly. 08/03/16 (JSD): The project is being bid in phases. The first phase of bidding is the consolidation pipeline between QVWD-Eastside and QVWD-Westside and the bid opening date is August 11, 2016. Bidding for the new well, storage tanks and treatment plant will be done later. 04/28/16 (JSD): Some final revisions to plans and specs being made to get the project ready for bidding in May 2016. 01/19/16 (JSD); Construction funding agreement has been issued with a completion deadline of 12/08/2018. Project kick off meeting was held in January 2016. Next step is 11/09/16 (JSD): draft plans and specs have been received and are under review by the District Office. Deadline for completion of the planning project is 12/31/16. A conf. call was held on 11/08/16 to go over the pending items to complete the planning project. 08/03/16 (JSD): Per email communication in July 2016 with GEI consultants, draft plans and specs are under preparation and will be soon submitted to DDW for review. Project completion deadline is 12/31/16 for the P84 planning project. 04/28/16 (JSD): Review of draft plans and specs on hold since they are incomplete. Draft PDR3A was approved by letter dated December 1, 2015. Test Well Completion report was approved by letter dated April 13, 2016. Amendment to Funding Agreement to extend the planning project completion date to December 31, 2016, issued to Rosamond CSD on April 25, 2016; waiting for RCSD to return the signed amendment to the State Board. 01/19/16 (JSD): Draft plans and specs for the consolidation project received on Dec. 31, 2015; the 11/09/2016 (JSD): Self funded POU treatment being installed, following completion of a POU treatment pilot study. Expected compliance date is end of 2016.

12/8/2016 - Project complete. Closing out FA. 9/16-wells online - one well has elevated arsenic - on quarterly sampling. Applied for construction funds (Phase 2 of construction). 6/16-drilled 2 production wells, equipping and construction of transmission pipe. New EPA AO issued. Wells to be online later this summer. Need to find funding for

12/12/2016- Test well drilling delays. Project is expected to complete in 2017. 11/09/16 (JSD): Drilling of the test well is in progress and is expected to be completed before end of 2016. 08/03/16 (JSD): Updated draft of the plans and specs for the test well received on 7/28/16; expected to bid the test well in Sep. 2016. 04/28/16 (JSD): Boron CSD is in the process of signing agreement with the property owner to drill a test well and also working on the plans and specs for the test well. 01/19/16 (JSD): plans and specs for the test well are under preparation. Also searching for a location for drilling a test well; discussions with property owners underway. 10/05/15 (JSD): Waiting for test well to be drilled.

9/16-Well 19 is on verge of exceeding the arsenic MCL. Need one more quarter. Well 12 has not been used at all as Well 19 is too high to blend with. Looking into treatment option - planning to apply for grant. 3/7/2016: Lamont needs a one to two quarters of data before they can return to compliance. Approval for new well on 12/16/15 (Well 19). Well 12 was valved off the system and a new dedicated pipeline was constructed to Well 19 so that Well 12 and 19 will be blended. Blended plan was approved by District office on 2/8/16 and the system has not started using water

11/09/16 (JSD): Review of updated environmental documents is in progress by BLM. The funding agreement was amended to extend the project completion deadline to December 31, 2016. The project is expected to be completed by Dec. 31, 2016. 08/03/16 (JSD): ERU of SWRCB and Rand CWD are working with BLM to address their comments on the environmental documents; the completion deadline is Sep. 30, 2016. 04/28/16 (JSD): The funding agreement is amended again to extend the project completion deadline to September 30, 2016, to allow additional time for environmental documents and comply with the BLM requirements. 01/19/16 (JSD): The funding agreement is being amended to extend the project completion deadline to June 30, 2016, to allow additional time for CEQA and NEPA.

Please clarify that consolidation and treatment plant construction are scheduled to complete in 2018, not just the construction of the inter-tie. RTC and construction deadlines are incongruent. Please update accordingly.

9/16-no changes in planning. 6/16-SRF FA for planning still going on ends 4/17 with 90% plans and specs submitted and under review. Previous update was incorrect as they were still in planning.

11/09/16 (JSD): Discussions between DFA and NEWD are in progress to discuss completing the project. A new funding agreement will be issued by DFA to NEWD depending upon the outcome of the discussions. 08/03/2016 (JSD): In July 2016, SWRCB-DFA issued a letter to NEWD about termination of the P84 funding agreement that expired in May 2016. Waiting for response from NEWD to complete the arsenic improvement project. 04/28/16 (JSD): In a recent email communication April 2016, Attorney General's Office has approached NEWD to restart the construction project and complete the construction. 01/19/16 (JSD): Construction project is on hold due to litigation between NEWD and contractor, Clarke Bros., Inc. 10/05/15 (JSD): Due to litigation between NEWD and contractor, the construction project is on hold. 5/29/15 (JSD): Per 5/8/15 email communication with Dollie Kostopoulos, NEWD has filed a cross complaint

1/10/2017: DE and LPA visited Tachi Palace on 12/2/16 and based on the review of the USEPA sanitary survey conducted on Tachi Palace and the visit, it appears that Central Union would be served water from a water system that is well operated, permitted and meets the Safe Drinking Water Act. DDW support this consolidation project. **10/31/16** Currently looking to see if consolidation with the Santa Rosa Rancheria is a potential long term solution for the school. A site assessment will be conducted by RCAC on 11/4/16 to further research this option and determine the extent of work required to consolidate. The SWRCB will also contact EPA to ensure the Rancheria has a regulated PWS that meets drinking water standards. **9/1/2016:** Central Union School is now in the queue to be assigned to a TA rep from CRWA and begin the planning stages for a permanent solution to their arsenic exceedance at the school. The LPA has been communicating with Elvira Reyes at SWRCB-DFA and indicating to her that the school will also need bottled water. They don't currently provide bottle water. The LPA will be attending the kick-off meeting at the school when scheduled. **7/29/2016:** AR request was submitted as indicated in previous update. Response by the state is currently

10/31/16 - No status change from previous update. **7/29/2016** - LPA will mail correspondence to request update of POU research and installation. **12/1/2015**-Issued revised compliance order under the advice of SRWCB. Operator will

10/31/16 No status change from previous update. **7/29/2016** - Installation of POU-RO units is not yet complete. 4/22/16: No status change from previous update. **12/1/2015**-A revised compliance order was issued in September 2015. The operator has submitted a proposal for installation of POU-RO units at two centralized locations.

1/10/2017:water system is still at the same location so they remain non-compliant. They assured the LPA that they will move, but it is likely that they will remain at the site for the rest of 2017. Bottle water is provided to the employees.**10/31/16** No status change from previous update. **7/29/2016:** No status change from previous update. **4/22/16:** No status change from previous update. This system is under a two year timeline to relocate to a new site.

12/16-SWRCB meeting disussed project on 12/8 and FA should be following quickly in first Qtr. 2017. 2/8/2016-the RTC date will be discussed at the 2/9/2016 EPA Region 9 Meeting. 10/15 - District will not re-issue Kettleman City a revised CO with deadlines at this time. They are installing a new SWTP that will treat water from the aqueduct – estimated construction 18-24 months. received grant funds from USDA for \$2 million additional money for construction. Environmental issues developed and identified by DFA ERU which will hold up the FA approx. 6 months.

12/29/16-LPA contacted the system operator, who indicated it was no changes in status since October 2016.

10/6/2016- Spoke with Alisa Morrison. The water system has applied for funding. Tony Morrison (water system operator) attended the Arsenic workshop on July 6, 2016. They have looked into treatment options (with Isolux Company) but determined it was too expensive (45-50K). Alisa Morrison stated that POE treatment will be too costly because of the additional testing that will be required. Lancaster Park MHP is continually looking into more affordable treatment options but so far have not found any. They are currently providing 5 gallon jugs of bottled water to their residents.

10/6/2016- Spoke with Fernando Rosas (manager). Fernando stated that Tony has been in contact with Cindy Cook regarding funding and treatment options. Fernando stated they are waiting for a list of approved treatment options. Once they obtain this list they will review it implement treatment.

6/30/2016: The water system operator has been consulting with Isolux Company for water treatment options for arsenic removal. They are also working with Cindy Cook with CRWA to apply for funding. They are attending Arsenic workshop on July 6, 2016 at Palmdale Water District to check for more treatment options. On April 7, 2016, LPA had

12/29/16-LPA contacted the system operator, who indicated that they installed flow meters, working with State on their funding, hiring engineers for further investigation to determine an appropriate equipment for their water system.

10/7/16- Received an email from Sandra Miloszar (President) who stated that they are in the same position. Mettler Valley Mutual submitted information to a contractor to design a filtration system and are waiting at this point. Sandra stated that she will email the name of the contractor once she is back in town. 10/8/16- Contractor information: Douglas Craver, Western Regional Sales Manager, AdEdge Water Technologies, LLC (480) 243-1824. 6/30/2016: Mettler Valley Mutual Water Company is working with Cindy Cook with California Rural Water association (CRWA) and an Engineer from NV5 for grant process. In June, 2015, the water system became a tax-exempt organization under Section 501(c) (12) and the funding is in financial stages. The water system is working with AdEdge Technology

12/29/16-LPA contacted the system operator, who indicated it was no changes in status since October 2016.

10/6/2016- Spoke with Alisa Morrison. The water system has applied for funding. Tony Morrison (water system operator) attended the Arsenic workshop on July 6, 2016. They have looked into treatment options (with Isolux Company) but determined it was too expensive (45-50K). Alisa Morrison stated that POE treatment will be too costly because of the additional testing that will be required. The Village MHP is continually looking into more affordable treatment options but so far have not found any. They are currently providing 5 gallon jugs of bottled water to their residents. **6/30/2016:** The water system operator has been consulting with Isolux Company for water treatment options. They are also working with Cindy Cook with CRWA to apply for funding. They are attending Arsenic workshop on July 6, 2016 at Palmdale Water District to check for more treatment options. On April 7, 2016, LPA had conference call with Lawrence Sanchez from State Water Resources Control Board. As per the discussion, the water system operator has been told to contact Cindy Cook to get assistance for treatment options for Arsenic. Full SRF application submitted for consolidation with LACWWD. According to Lawrence Sanchez, from the State Water Resources Control Board (818-551-2017), the application is pending review by the State Water Resources Control Board. **2015:** Full SRF

Referred to EPA -- EPA issued NOV on 10/17/2016. 7/25/2016: No status change from previous update. **6/13/2016:** Well 8's latest arsenic concentrations was at 10 ug/L and 10.2 ug/L. The Company is planning to further reduce Well 8's production from 600 gpm to 400 gpm, hopely to lower asenic concentrations. Well 7 is not permitted yet, still waiting for SC Edison to hook up the power, initial arsenic sampling showed the concentrations was at 7.5 ug/L, it is too early to discuss its arsenic compliance. **April 18, 2016:** Well 8 was out of compliance with arsenic MCL in the first quarter of 2016. **January 11, 2016:** Well 8 was out of compliance with arsenic MCL in the fourth quarter of 2015, the Company will take another arsenic sample for Well 8 on January 12, 2016 to confirm the forth quarter's result of 21 ug/L. The new Well 7 is drilled, however, it is waiting for SCE to install new power line. **9/14/215:** the drilling of a new well, Well 7, is in progress. Enforcement History: May 23, 2008 - Notice Of Violation issued for violating Federal arsenic MCL. January 6, 2009, Compliance Order issued for violating arsenic MCL (this Compliance Order did not meet EPA's formal

10/31/2016 No status change from previous update 9/13/2016: after discussion with DE and EPA, we will be RTCing this system after we get the date when the system physically removed the source from the distribution system.

9/8/2016: Liberty High School has 2 sources. The North Well (LPA source 2000150-001) and the West Well (LPA source 2000150-002). The water system is utilizing the North Well to supply the water system since that source does

1/3/2016- Water system is waiting for the Environmental Impact Report to be released in order to proceed with the consolidation project. System has requested assistance to complete their application for construction. They have a project under 2000506-001C (Pin No. 36233). To date they have only submitted the general package. **10/31/2016** No status change from previous update. **8/2/2016** No status change from previous update. **4/28/2016** No status change

9/8/2016: FFAST Planning Application completed 3/22/2016; The water system is out of compliance with the arsenic MCL and uses the same source water as the Cedar Valley Mutual Water Company. Cedar Valley is currently working on an application for DWSRF funds to install a filtration system for removal of the arsenic. The Yosemite Forks Estates Mutual water system needs to submit an application for DWSRF planning funds and determine a mutually agreeable solution to ensure that the water delivered to the customers meets all of the primary and secondary drinking water standards. A meeting will be held to discuss expected outcome and challenges. Coordinate with Cedar Valley since only one treatment system will be built. An agreement will need to be made to construct and operate the treatment plant. Yosemite Forks Mutual water system will receive assistance with completing the required documents for the DWSRF application. Plan to submit SRF application beginning 2015 6/13/16 (JG): No application has been submitted and they are not currently working with DFA staff.	yes
WS applied for SRF planning in 2013 but have not reached a planning FA yet	yes
SRF Funding. Working on funding application using Assistance Referral.	Yes
After 36 months of planning FA the project has not met its FA milestones and is requesting another 18 months of planning	Yes
Prop 84 Planning and feasibility FA issued	Yes

WS only just applied for SRF planning in October 2014	
After 18 months of SRF Planning the project has not met its FA milestones and is requesting another 18 months of planning	Yes
After 36 months and 2 SRF planning FA's the project has not met its FA milestones and is requesting another 18 months of planning	
FOR PROFIT, SRF NOT APPLICABLE	
6/13/16 (JG): The County completed planning in 2015 and applied to DWSRF/Prop 1 through FFAST for construction 3/1/2016. Currently updating their environmental documents and getting updated financials to complete application.	Yes
6/13/16 (JG): Madera County has applied on behalf of VTR to consolidate them, the County is currently completing its Environmental document for the construction project, should have complete application by September 2016.	Yes

		12/31/2017	
			12/5/2015
			11/6/2016

<p>1/3/2017-Water system submitted FFAST application in July 2016 for a new well and tank. System is waiting for feedback on the application. 10/31/2016 No status change from previous update 9/8/2016: The FFAST application was submitted 2Q2016. 8/02/2016 No Status Change from previous update. 4/28/2016 No status change from</p>
<p>1/3/2016-The new funding agreement was approved. Amending the contract with the contractor because the scope of work has changed. 12/8/16- Planning will complete 12/31/17 and county will submit construction app. 9/13/2016: Per the DE, the previous funding agreement terms expired and this is why it took so long to get a new planning FA executed (\$232K, planning to be completed by 12/13/2017). A test well has been drilled and the system is a part of a regional planning project. Installation of treatment and the construction of a consolidation pipeline are still needed for the construction phase of the project, which is expected to start in 2018. 9/8/2016: As of 8/8/2016 arsenic single sample</p>
<p>1/3/2016-The new funding agreement was approved. Amending the contract with the contractor because the scope of work has changed. 10/31/2016 No status change from previous update 9/8/2016: Proposed treatments have been deemed not acceptable as permanent solution, as a result alternative treatments are being considered for the consolidation project. The water system is looking for acceptable treatment options that would qualify for funding. 8/3/2016: There has been no updates on the water system. 6/29/2016: District Engineer has notified the School that they could apply for bottled water but likely won't pursue it because they know that the long-term solution is in the works. 4/28/2016 No status change from previous update. 3/10/2016: The system is consolidating with MD#8 North</p>
<p>10/31/2016 No status change from previous update 9/8/2016: You are correct, this compliance order is a duplicate that was issued when the 3rd well exceeded the RAA for arsenic. The correct comply by date is 5/3/2019. I will amend the compliance order to include all 3 sources that exceed the arsenic MCL. Wendy has corrected the master spreadsheet. The water system has corresponded back to Madera County indicating they will comply with the directives of the compliance order. They are currently looking at POU as a possible treatment. 8/3/2016 Compliance Order is active because water system decided to keep wells active. Public Notification Provided. Change of Operator. In contact with new operator and he has hired someone to prepare a conceptual plan for obtaining compliance. 4-28-</p>
<p>8/2/2016 No status change from previous update 4/28/2016 No status change from previous update</p>
<p>8/2/2016 Awaiting for results. 4/28/2016 No status change from previous update.</p>

<p>8/3/2016 2016 4th consecutive Q out of compliance. 4/28/2016 3rd consecutive Q out of compliance.</p> <p>01/15/2016 Revised CO will be sent to water system because it was not sent in June 2015. Water system was in compliance for 1 quarter, but has been out of compliance 2 quarters now. Public Notice Provided to Employees. A</p> <p>12/8/2016 - working on updated Plans and specifications. May not meet project completion date. UPDATE: (4/25/16): Project was rebid and the contract for the various contracts should be awarded in the next couple of weeks. HWC is ready to move forward once the contracts are awarded. UPDATE (KDC - 9/29/2015) - Project out to bid but the bids came in over budget. Looking to rebid the project with a modified bid schedule to hopefully get the project completed</p> <p>12/8/2016 - Applicant is working bidding out the project. Updated 4/25/2016 - KDC: Project is underway. Some components of the new system are being bid with the Oakhurst/Sierra Lakes Project to make the projects more affordable.</p> <p>6/29/2016: They have continued to have difficulties with getting the blend treatment going. They are currently just using Well No. 401 and not Wells Nos. 1 and 2. However, if demands increase, then they would need to use Wells Nos. 1 and 2 (high arsenic wells) to meet demands. 5/7/2016 - KDC: Blending treatment should be operational by June 30, 2016. 3/10/2016: system will be in compliance by the end of March 2016 by either blending or using the intertie with</p> <p>Updated 4/25/2016 - KDC Proposing to install a POU device at the Industrial Park for removal of the arsenic.</p> <p>Updated 4/25/2016 - KDC Compliance Order issued. FF recently installed an RO unit at another facility and is planning to test the unit and then begin work on getting a similar unit installed at this location.</p> <p>Update 4/25/2016 - KDC: The System has worked with the manufacturer to optimize the arsenic removal treatment plant. The monthly arsenic test results have been below the MCL but the RAA is still over the MCL. The System anticipates having and RAA less than the MCL in the 3rd quarter of 2016. We should be able to return this system to</p> <p>6/20/2016: Back-up help couldn't find the public notice info for Mono Sierra East so we will have to wait till Jon gets back from medical leave in July. 2/2/2016-4Q2015 MCL violation entered into Envision. 12/11/2015-M&R violations is due to system not monitoring and lack of an operator. DE updated that SRF funding is being processed by funding</p> <p>12/29/16-DE didn't identify whether the school is receiving bottle water. see funding section for DFA project status. 11/14/16 - Bridgeport adopted rate increase in October, Need FA to begin construction. 7/26/16 - Revisions to final plans/specs need to be submitted. Status meeting, site visit scheduled for 8/2/16. 6/24/16 - One elementary school served. Exploring bottled water option for upcoming school year. 4/28/16 - FFAST application submitted Feb 2016. Final design, plans, specifications under review. Per DFA on 4/27/16, expect 6-12 months to issue construction funding</p> <p>6/27/2016: SPCA WS- they said they were having difficulty with the regional sewer plant taking the waste so they are installing drying beds. 11/3/2015-Waiting to see if nearby system with installed treatment can resolve waste discharge</p> <p>5/11/16-April finished water was 32 ppb so plant is still having issues with maintenance. 3/7/2016:they are tweaking their treatment process (updating software to better control backwashes and just added a coagulant feed. The new compliance date is June 30, 2016. If the upgrades don't work, then we will send another compliance order (or citation). 1/29/15- added chemical feed and upgrading software/controls to improve backwash- next few months will indicate if</p> <p>6/27/2016: They want POE, which is not allowed for compliance purposes by our local ordinance. However, since the state is developing POE/POU regulations, Monterey county is considering amending the ordinance so this may become a viable option if they meet the criteria. 12/24/2015-The compliance order has been updated and the initial compliance</p> <p>6/27/2016: System has indicated desire to stay on bottled water. Updated enforcement will be issued in July 2016 indicating bottled water is not long term solution. 5/11/16-Plans have been completed. Principal is interested in staying on bottled water so an updated compliance order is in process. 12/1/2015-The project is moving. Peter Haase at Fall Creek said he would deliver the Plans and CEQA documents by this week, but DFA has not received the documents yet. Back in September/October, the new Superintendent had concerns on the monthly operating costs and</p> <p>6/27/2016: blending is no longer viable option since further testing showed the other well also is high in arsenic. The system missed deadline for compliance plan so enforcement is pending. 12/24/2015-The compliance order has been</p> <p>6/27/2016: they want to use Isolex and have hired engineer to design plans. Self funding.</p>

DWSRF	
Owner submitted pre-application for state funding in 2010.	

1/7/2015 Planning Application Submitted.	Agreement Number: D16-02012, Project Number: 3301380-001P, 7/1/2015 Application Deemed Complete. 8/31/2016 Draft Planning Funding Agreement sent to system.		

6/27/2016: proposing POE's and system would fund.

6/27/2016: plan is delinquent so enforcement is pending.

6/27/2016: They may not meet the July 2016 date since they are very interested in POE/POU, which our county is just now considering so they need to do the cost analysis. We will reevaluate plans due date when we get the selected option. 2/24/2016: is not part of a disadvantaged community. They are self-funding their project by increasing rates or special assessment. Their first milestone is:

- July 2016- determine preferred alternative – consolidation or treatment.
- Jan 2018-develop plans
- June 2018-implement compliance option

12/24/2015-They submitted initial compliance plan in September. They are researching treatment and intend to self

6/27/2016: They are deciding between installing a new treatment plant or purchasing water from Washington School (next door and preferred option). Washington School is stalling on implementing treatment so updated enforcement is pending. 12/1/2015-Proposed solution has not been determined yet. 11/3/2015-treatment plant was working, but system removed treatment plant in July 2014 said too expensive to operate. New compliance order to be issued.

11/1/2016 - Plumas Eureka CSD submitted a feasibility study for the planning loan project on October 28, 2016 that is currently under DDW review. The arsenic treatment pilot study protocol was reviewed and approved on 9/26/2016. The pilot study was started on 11/1/2016. The pilot apparatus was inspected by DDW on 11/4/2016. The planning project, although slightly delayed because the first pilot contractor pulled out of the project, is on a suitable schedule for compliance. **8/1/2016** - Plumas-Eureka CSD held a conference call with representatives from DFA and DDW on July 13, 2016. The discussion included a list of requested revisions to their SRF planning loan application that eliminated the intertie alternative and provided for appropriate CEQA documentation. The new consultant, FarrWest Engineering (Reno), was hired on July 13, 2016 to provide an alternatives analysis and PER to return to compliance with the arsenic MCL. DDW is revising a new compliance order to reflect a new schedule for deliverables because of the time needed to process the SRF loan application, but the final cease and desist date of November 2017 has not been revised.

4/18/2016 - Met with the District board three times during the months from October 2015 to February 2016 to discuss the inadequate proposal and timeline for compliance. The submitted PERs did not describe adequate alternative analyses that included an intertie with a local community and the issues that may have been important to the proposed project of arsenic treatment, such as easements and rights-of-way. **9/22/15** - Lassen District Staff met with system and

11/24/2015-Saint Anthony submitted application at end of Oct 2015 for planning funding. Still has an assistance referral for TMF due in January. Owner has obtained a conditional use permit through Riverside County. A condition of the CUP is to provide centralized treatment prior to issuance of any building permits. The existing treatment station has been approved as an interim solution until centralized treatment is installed. This is a county code case. The LPA is working with other Departments to permit this park and obtain compliance. 10/25/16: Please see notes on funding and planning section.**7/21/16**: Plans have been submitted for new distribution system. Treatment plans are pending. The LPA and our state DE would prefer that this system consolidate with Coachella Valley Water District (CVWD).

6/5/2015-Tier 2 arsenic notifications issued quarterly. Well is sampled for arsenic quarterly. Saint Anthony MHP is an unpermitted park. Owner has obtained conditional use permit through Riverside County. A condition of the CUP is to provide centralized treatment prior to issuance of any building permits. The existing treatment station has been approved as an interim solution until centralized treatment is installed. Preliminary treatment plans approved by LPA.

10/25/16: Treatment plans approved 9/14/16. Condition of approval is that treatment system must be operational by 4/1/17. Tier 2 arsenic notifications issued quarterly. Well is sampled for arsenic quarterly. System is classified as a non-transient, non community.

N/A	N/A	N/A
No	N/A	N/A

10/25/16: FFAST application has been submitted. Still needs to be reviewed by State. **7/21/16:** Water system has contacted CVWD about consolidation. LPA contacted CVWD re: consolidation. CVWD states that this water system is interested in a master meter and they are in discussions with water system. Oasis Gardens is working with CRWA on a FFAST application to consolidate with CVWD.

6/9/2016: Water system has secondary well on site that they are going to test Arsenic levels to determine if that is below the MCL. Sample results due no later than August 2, 2016. 3/15/2016 Water system issued compliance order for ARA exceeding arsenic MCL. 8/2/2016 Water System is currently getting bids from three companies to determine which treatment type is most feasible.

12/29/2016-Data needs to be cleaned up in SDWIS to reflect current status. SOX may be deleted and violations may be reassocated with old compliance order. LPA will reassess on whether this system has RTC. 11/30/2015-LPA was planning on revising compliance orders with a RTC date of 11/16/2016. No longer going to create public entity. Water System just changed ownership in July 2015. Water system is planning on public meeting on 4/20/2016 to look at

9/6/2016: Water System is going to spend the rest of their grant money on connecting to another SWS. They are waiting on the county to provide them with a contract for the service connection. **6/9/2016:** Water system has not signed a contract with the larger utility. Water system is not going to do treatment as they cannot afford O&M costs. **11/30/2015**-LPA was planning on revising compliance orders with a RTC date of 11/16/2016. Water System finished pilot study. Water system is looking into consolidation with another SWS. Water system had a public meeting on **4/14/2016** in regards to connecting to a larger water system.

6/9/2016: Water system hired engineer to determine operation issues with the water system. 11/30/2015-LPA was planning on revising compliance orders with a RTC date of 11/16/2016. Operational issues. Water system changed ownership 3/24/2016. 8/2/2016 Water System is on a compliance order to determine what the operational issues are.

6/9/2016: New well was dug May 2016. Arsenic has not been tested for since well was dug. 12/23/2015-LPA states that the water system will be receiving a revised compliance order by the end of the year. 11/30/2015-LPA was planning on revising compliance orders with a RTC date of 11/16/2016. Well #3 is no longer on line 3/15/2016 Water system has submitted application to drill a new well and conduct a pilot study on new well to determine which treatment system will be installed. Well construction permit issued 2/18/16

12/7/2016: Water system installed transmission line and anticipate to install lateral lines and connect individual unit by Jan 2017. 6/9/2016: Water system is in contract with larger utility to connect in October 2016. 11/30/2015-LPA was planning on revising compliance orders with a RTC date of 11/16/2016. Constructing line to consolidate or be a

6/9/2016: Water system is still currently connecting piping from new well to distribution system. April sample results for new well were 13 ug/L. 12/23/2015-LPA states that the water system will be receiving a revised compliance order by the end of the year. An inspection for was conducted in April 2015 and the well has not yet been finalized yet. The LPA has not heard on when the new well will be put online. 11/30/2015-LPA was planning on revising compliance orders with a RTC date of 11/16/2016. In contact with well driller to put wells online. New well has completed T22

6/24/2016: The system has been in talks with neighboring water system to consolidate however no formal plans have been submitted. The LPA will send out an amended CO and give them 3 years to comply. 5/12/2016-the water system is working with Tetrtech to provide a RO treatment unit. The operators met with EHS in September 2015 to discuss brine disposal options and were referred to the RWQCB for guidance. 12/1/2015-The system applied for funding and is

6/24/2016: Formal plans for the proposed RO system have not been provided. The LPA will send out an amended CO and give them 3 years to comply. 5/9/2016-The water system is working with Tetrtech to provide a RO treatment unit. The operators met with EHS in September 2015 to discuss brine disposal options and were referred to the RWQCB for guidance. 12/1/2015-The water system is working with Tetrtech to provide a RO treatment unit. The

6/24/2016: LPA approved the arsenic water treatment plans. System is in the process of being installed. 5/9/2016-EHS is reviewing plans submitted by the water system for an AdEdge arsenic treatment unit. EHS is reviewing plans

This PWS was RTC in 2010 after shutting down the problematic well.
What happened with this system to cause the MCL violation? Are there
other associated violations (e.g. violation of using an unapproved source?)

Prop 84	No
2/5/2016-Ironwood Campground was cleared by technical, environmental and financial staff in the end of 2014. In April 2015 DFA legal counsel determined that the language in the applicant's bylaws prevented the State from doing business with the entity. This was because they discriminate on who can be a member of the community (campground) and our legal counsel determined that we would be violating state law to funded the project. As a result, the application was inactivated. Submitted Application on 3/26/14 for planning funding	

12/27/2006	9/6/2012	9/6/2014	9/4/2015 (incomplete)

No	Pending	

6/24/2016: Had a meeting on 6/22 with water system to discuss compliance plan. The water system is to meet with Hi Desert regarding intertie as back up to primary well. 5/9/2016-Design complete for interconnection with High Desert Water District. Awaiting prop 84 construction funds. 5/5/2016: Issued NOV on 3/29/2016 and now are now in negotiations with the county. Fluoride and Uranium were also added as constituents that were above the CA MCLs and were included as information only since the Fed EPA cannot enforce them. 3/8/2016-DDW has requested that EPA issued a compliance order. 2/18/2016-DE followed-up with San Bernardino County Special Districts, who operates the water system, about providing bottled water, and they discussed about applying through FFAST for the interim CAA emergency funds. The CSD have not been directed by the LPA to provide bottled water, so the DE gets the feeling they are hesitant to do so. The DW will keep the discussion going. There is a resolution to this in the works. Last year they completed a P84 planning project to design a 5-mile pipeline to the nearest WS, and DFA is reviewing their construction

12/29/2016: Knoll's intent to comply letter was received in January 2015 in response to amended CO dated 11/14/14. Knoll didn't send any update since January 2015. A citation was issued on 7/10/15. District Engineer will be assisting LPA with escalated EA. **10/31/2016-** Spoke with owner as always she was very eager to comply and take adequate steps needed to move situation along but there is no follow through on her part and remains unresponsive when trying to find out what the status is. **9/16/16** - A viable plan has not been submitted at this time, we are working with the PWS. **6/24/2016:** Water system unable to apply for funding and has not provided a viable compliance plan. A citation

12/29/2016: RAA for RO Effluent = 1.975 µg/L, the System is planning on expanding their RO treatment system for the entire facility. Currently, the treated water is for the coffee shop and dining hall. **9/16/16** - They have determined that because of their bylaws they would not be accepted for funding so have not reapplied. Their comment: "We are working on a plan to expand our RO coverage but it will take time to fund and implement. Currently everyone we provide water for obtains their drinking water from our RO system. We have had a large RO unit donated to our organization which triples our production ability. Again it will take time to secure funds necessary for the install and to do the install." **6/24/2016:** Water system applied for funding but cannot be approved. The LPA will issue an amended compliance order requiring compliance in 3 years. **5/9/2016-**Water systems currently has an RO system that serves the dining hall, both coffee shops, etc. however staff residence are not served. The system has applied for funding. **12/1/2015-**Water systems currently has an RO system that serves the dining hall, both coffee shops, etc. however staff residence are not served. The system has applied for funding. **6/2015-**Sent water system an amended CO

11/4/16 - Agreement No. D16-02007 was issued on 9/28/16 to Warner School from DFA for the permanent solution and included the transmittal Letter, Funding Agreement/Exhibits, signature pages and Draft copy of the General Counsel Legal Opinion Letter. The School Board approved the package and currently the legal general opinion form is being completed by School attorneys. The Clean-up & Abatement Fund agreement is being reviewed by DFA analyst. 6/15/2016 - Application for Clean-up and Abatement funds for interim solution was submitted in May 2016. Mark Magtoto of DFA indicated the application would not be considered since the engineering design from NV5 included a POE for the cafeteria building and not a POU as used in other schools with an Arsenic exceedance. A conference call between NV5, CRWA technical assistance provider, Mark Magtoto of DFA, LPA, Certified water operator, Warner School representative and DE happened in 6/2016 and addressed how to move forward. Engineer NV5 was to investigate the POU used at another school in the State and report back to the group. All documents have been submitted to Brenda Pauli of DFA to complete the application for funding for the long term solution. Application is under review and will take several months per Brenda Pali. 11/20/2015-The LPA had a conference call with Warner School today. Kyle, Brenda, Sean, Connie, Noel and the school were present. There are two items missing from the application to make it complete:

- Authorizing Resolution
- Schedule of System Obligations

The school board meets next on December 8th, at which time these items can be addressed. In the meantime the

6/13/16, This is State funded project and San Joaquin County Public Work Department is working on the plan for the new water line extension. Once the County approves the water line extension, the City of Stockton will start the connection process. 1/11/16 CRWA is continuing to work with city and water system towards making a connection using SWRCB Funds. 11/19/2015-As this is a state funding project. The LPA has no idea on the RTC date. LPAs do not write new compliance orders with new RTC dates this is a funded state project. 11/2/2015- Julie Martinez of Cal Rural

6/13/2016, This is a State funded project and CRWA is working with the water system and San Joaquin County LPA is unaware of the status. 2/22/2016: Reid Johnson of Nolte Vertical 5 is the consultant working on this project. This is a SB funding project that provides money to the City of Manteca to install a new Source and to make a connection to this school through an Emergency out of Service area LaFCO connection. 1/11/16. Consultant, Reid Johnston, is continuing to working with water system and city to make this connection using SWRCB Funds. 11/19/2015-As this is a state funding project. The LPA has no idea on the RTC date. and the LPA doesn't write new compliance orders with new RTC

6/13/2016, This is a State funded project.

Yes, bulk hauled water is provided by Aero Pure Water Company.

The test well was drilled and destroyed on 10/28/2015. 1/11/16 Julie Martinez of CRWA is continuing to work with the water system to obtain the proper paperwork for SWRCB funding to make a connection with the City of Stockton.

6/1/2015-System lacks money. Public Notification. 11/2/2015-Julie Martinez of Cal Rural Water contacted Silvia regarding needed documentation. Silvia has not yet been able to locate anything but the deed, but she has not yet sent it to me. Silvia gave permission to contact her lab and Quality Service. Inc. for additional information. A scheduled site visit for Nov. 3rd will be made. Pursuing the connection to City of Stockton .

6/13/2016, Contractor has submitted the second round of corrections to San Joaquin County Public Work Department pending for approval to install a 12" Water main extnsion. If not finished by the end of this year, A new order will be issued with a new RTC date. 1/11/2016- On 9/15/15 the LPA was made aware that the new source collapsed and was no longer a viable option. The water system was directed to obtain a Will Serve letter from Cal Water Services for a connection. On 9/29/15 the LPA received a copy of the "Will Serve" letter that confirms Cal Water Services will service this parcel. The Water System is working with Cal Water Services and Cal Trans for permits and approval to cut through the road to make a connection with the Water System. This connection should be accomplished by March 2016.

11/2/2015-New source Well collapsed. They received a Will Serve letter from Cal Water and will be making a

11/24/2015-Can system move forward with consolidation so when Hughson returns to compliance, all systems RTC at the same time? The LPA and SWS are not involve in this process and therefore cannot comment on moving forward with the consolidation. **11/2/2015**-*Formal compliance plan has not been submitted to this department, but this water

11/24/2015-Can system move forward with consolidation so when Keyes returns to compliance, all systems RTC at the same time? The LPA and SWS are not involve in this process and therefore cannot comment on moving forward with the consolidation. **11/2/2015**-* Formal compliance plan has not been submitted to this department, but this water system is a candidate a large water system consolidation project (Keyes Water System). Compliance order will be revised based on definitive guidance this project will happen. Awaiting response.

6/16/16 - On June 13, 2016 the water system went before the City of Ceres Council to request consolidation. The City of Ceres rejected this request for consolidation. A new Corrective Action Plan will be required of the water system.

4/22/16 - Office Hearing was conducted on April 19, 2016. A new compliance order is being generated and water system has been directed to provide documentation to support their claim that LAFCO has rejected their consolidation

11/24/2015-Can system move forward with consolidation so when Keyes returns to compliance, all systems RTC at the same time? The LPA and SWS are not involve in this process and therefore cannot comment on moving forward with the consolidation. **11/2/2015**-* Formal compliance plan has not been submitted to this department, but this water system is a candidate a large water system consolidation project (Keyes Water System). Compliance order will be revised based on definitive guidance this project will happen. Awaiting response.

11/24/2015-Can system move forward with consolidation so when Keyes returns to compliance, all systems RTC at the same time? 11/24/2015-Can system move forward with consolidation so when Hughson returns to compliance, all systems RTC at the same time? The LPA and SWS are not involve in this process and therefore cannot comment on moving forward with the consolidation. **11/2/2015**-*Formal compliance plan has not been submitted to this department, but this water *Construction application is complete and FA is in progress. Compliance order will be revised based on projected time frame for FA and construction. Awaiting response.

6/16/16 - Water system obtained legal council to move negotiations forward and anticipates closure of negotiations by the end of June. Begining in July the water system will initiate obtaining construction permits for the service connection. **4/22/16** - The water system projects having consolidation fees negotiated with City of Ceres within the 2nd Qtr of 2016. **2/26/2016**: This water system is scheduled for an Office Hearing on March 1, 2016 due to failure to move forward with consolidation and will receive a revised compliance order. **11/2/2015**-*Consolidation plans submitted on

6/16/16 - The source is now showing elavated levels of nitrates and the water system has been required to initiate quarterly sampling. The Water system submitted correspondance on 6/8/16 indicating that they would be submitting documentation to obtain a well construction permit by the end of June 2016. A new corrective action plan is to follow

4/22/16 - The water system owner experienced a medical emergency and was unable to attend. The office hearing was rescheduled for May 17, 2016 as his Dr will release him for attendance at this time. **2/26/2016**: The water system has not moved forward with consolidation. An Office Hearing will be conducted on April 12, 2016, with a revised

4/22/16 - This water system RAA is trending upward. Initial testing for 2Q - 2016 indicates the RAA will exceed the MCL in 2Q - 2016. A compliance order will follow once the official RAA is established.

4/22/16 - Water system has secured a civil engineer with water experience and is developing an application for installation of a treatment plant. **1/19/16** - Office Hearing conducted on **1/19/16** for this water system. A new compliance order is being issued to the water system. **11/24/2015**-On November 10, 2015 this water system failed to

12/8/16- FA will be issued by 1/1/17, Consolidation project no longer inlcuded but agreement will be issued separately.

4/18/2016-No status change from previous update. DFA Project Officer - Joel Greathouse

9/22/15 - Two projects, well and treatment and other consolidation. Technical and Financial clearance are ready to issue but don't have ERU clearance. The City needs to do more environmental work. Two projects under one funding agreement.

7/1/2015 - Project is having a consolidation component added. Two LPA regulated systems in Stanislaus County that have Arsenic MCL violations are going to be consolidated into the City of Hughson. The City has been very responsive

Pending	Pending	
Pending	Pending	

4/18/2016-No status change from previous update. 11/5/2015-per DFA Project Manager - Marques the construction FA may get issued early 2016.

9/22/15 - ERU is finishing up review. Need to finalize the scope of the project for the consolidation part of the project. Projected funding agreement will be issued in approximately 2 months. Construction scheduled to take 2 years. Still need to finalize the design of the consolidation elements. Meeting with the three systems on 9/28/2015 to get update on status and work on the water service agreements for the consolidations.

7/1/2015 - Project is having a consolidation component added. Four LPA regulated systems in Stanislaus County that have Arsenic MCL violations are going to be consolidated into the Keyes CSD. The District has been very responsive to this addition. DFA is working to fund this overall project as a regional consolidation to enable sufficient grant funding to be made available to pay for this project.

11/7/2016 - Water system was issued a compliance order in September 2016, ordering the system to meet arsenic and manganese drinking water standards by 12/31/2018. DDW set up bi-weekly meetings with the county to discuss progress as well as obstacles that would prevent the system from meeting all requirements. **8/16/2016** - A review of the FFAST website shows that a construction grant application for arsenic treatment has not been submitted yet. CRWA will be assisting the WS with the application. It is still unknown as to whether Golden State Water Services will purchase the water system. **4/20/2016** - Project will potentially be slowed up a little bit as Golden State Water Services is looking to purchase the Robbins water system. Two funding applications are in the works right now to first install meters, then to construct the arsenic treatment plan (along with 100% design plans and specs). **1/22/2016**- planning study is complete,

11/7/2016 - FFAST application documents are still in the process of being completed. **8/16/2016**: The Valley District recently approved the production well design for the water system. The engineer for the project is currently working on the FFAST application for construction funding. **6/9/2016** - A test well was recently successful in locating good water bearing strata. As soon as this SRF planning study is complete, a revised compliance order will be issued with a compliance deadline - which will be 3 years from date of issuance, maybe sooner if agreed to by upper management since this is just a well. 3 years is typical. Estimated time to formally complete the planning study is estimated to be 4Q16. **4/20/2016** - Water bearing zone has been selected from test well results, but selected zone will be redrilled (as

11/7/2016 - It appears all FFAST application materials have been submitted. Waiting on DFA review and FA approval.

8/16/2016 - For this quarter CRWA just received completed CEQA documentation from the City of Yuba City in an effort to help complete the FFAST application for construction funding. The water system is still on bottled water. **4/8/2016** - As the surviving entity, the City of Yuba City has requested assistance from California Rural Water Association to complete a funding application to fund construction for consolidation with Barry Elementary School. CRWA working on CEQA requirement. **1/8/2016** - As the surviving entity, the City of Yuba City has requested assistance from California

12/7/2016: Consolidating with Los Molinos CSD. Please see LMCSD's Project Status. **12/14/2015**-Stuck in CEQA

11/7/2016 - DFA recieved service agreements and financial package from WS. Technical and financial has been signed off. The Environmental Review Unit (ERU) is sending a letter to US Fish & Wildlife (USFWS) requesting comments by 12/7/2016. Once positive confirmation is recieved from USFWS the DFA will draft the funding agreement. **8/16/2016** - Planning Project has been completed and FFAST application submittal for a new well construction grant is pending review and approval of Draft Water Service Agreements (By Gary Chan, LMCSO, and CSD attorney) and Financial Package (by Jim Lowden with LMCSO). **4/20/2016** - A required CEQA study (Initial Study/Mitigated Negative Declaration) has been completed by Coleman Engineering and Enercon Services, Inc. for this project. Coleman

10/26/16 - Water system is moving forward slecting POU/POE. **8/1/16**: Water system has proposed POU/POE. System has hired a consultant to identify and select units/locations and to develop the POU/POE plan inclduing operation. **4/27/16**: Working with water system on timeline to begin construction. Water system bringing in consultant/operator.

9/16-FA has been executed - construction not yet out to bid for second well. 6/16. 1 well drilled with USDA funds. Construction planned for another new well, modifying existing 2 wells to seal off the lower aquifer with high arsenic,

6/16 - RAA is below MCL. Planning to return Richgrove back to compliance. Awaiting 2nd Q 2016 result. 4/28/16 System has 5 consecutive quarters of data on file. RAA is below MCL. 3/10/2016: Monitoring has been sporatic and will be expecting a sample result at the end of the month and the District will evaluate then. 10/15-Planning study

12/16-Prop. 218 passed for the O&M costs for the asrenic treatment plant. Construction funding application should be submitted by SelfHelp in 1st Qtr 2017. 12/12/2016- Construction application is being processed. Recently passed Prop 218. 6/16 - Planning finished, Plans and specs approved. Finishing environmental and construction application.

Status? 6/28/2016: LPA will be issuing the water system a new compliance order by 7/1/2016. Water system was RTC due to a misunderstanding that bottled water was an acceptable long term solution. Sanitary survey was conducted , a new compliance order will be issued by the end of May 2016 . 8/8/2016: A new compliance order was issued in July

12/22/2016: The Yolo Fliers Club treatment system has not yet been RTC. Since the installation of treatment earlier this year, Well 01 failed and Well 02 was installed. The arsenic levels in Well 02 and post treatment are being monitored monthly to determine both Raw and Treated water RAAs for compliance with the Arsenic MCL. Arsenic levels in both the raw (Well 02) and treated water have fluctuated above and below the MCL since initial testing began in August 2016. Since Well 02's installation and connection to the water system, the treatment process has been unreliably effective, with intermittent treatment failure. Because of this, the water system is currently under monthly public notification, which is updated to reflect the current levels of arsenic from monthly testing results and the status of the treatment system operation as reported by the Operator. The Operator is working with Culligan to determine why the treatment system may be failing intermittently. YCEH is waiting for a final assessment of the treatment system from the Operator and Culligan pending their findings. The system is currently operating on by-pass mode from the treatment system. The raw water results (Well 02) for the month of December showed arsenic levels at .0091

Status? 5/5/2016: EPA had a conversation with the LPA to discuss a possible issuance of a NOV, but as time went on the water sytem submitted water quality data for the past year and has proposed to install treatment by 6/30/2016. EPA will follow-up with the LPA for a status update. 3/10/2015: System is not moving forward with directives that are in the last compliance order. We are asking EPA to go forward in doing enforcement. 12/7/2015-The system has not RTC, but is expected to provide a treatment proposal that will include coagulation and filtration. 11/2015-Temporary proposal approved for reverse osmosis POU treatment. 2/2016- Engineering report received with proposal to use activated

Yes	3Q/2015 - 0.14 (with POU)
No	4Q2015 (Well 01) - 5.6
Yes	4Q2016 (Well 3) -2.8* *includes 3 quarters of POE ND results. Will RTC.
	1Q/2015 (Well 1) - 15.0 1Q/2015 (Well 2) - 21.5

Operator submitted Univ Preap during Sept 2009.

Will self-fund a project

Privately owned - System not eligible.

For-profit private business - Ineligible

System not eligible.

POU units have been installed on 26 connections. RTC after 4 QRAA < MCL. 7/29/15 update: 4QRAA with POU in place for one quarter is 23.5 ug/L. Anticipate RTC by end of 3rd Q 2015.	9/9/2015
	3/1/2014
Proposed piloting treatment but vendor nonresponsive. 7/29/15 update: 4QRAA = 7 ug/L. Will RTC if they maintain QRAA<MCL for four full quarters. System continuing to look at piloting treatment. 9/17/15 update: 4QRAA = 3.7 ug/L. Will RTC if this trend continues. 12/8/15 4QRAA <MCL for 5 consecutive quarters based on reduced source water quality arsenic concentrations. RTC effective 12/8/15.	12/8/2015
11/7/16 update: RTC based on 4th QRAA results 8/16/16 Will confirm ability to RTC based on sampling following installation of POE; 6/14/2016: POE device testing shows ND in samples collected on 1/28/16, 2/3/16, 2/11/16 & 2/18/16. 8/4/2015: The water system's consultant will have the POE test plan to the State in three weeks, and on the State's approval can complete installation in three weeks. The State will require a one month 'pilot' demonstration of the POE units. Estimated completion of the piloting is November 1, 2015. 7/29/15: 4QRAA = 13 ug/L. System has been developing information on appropriate treatment and pilot study. <u>Do not agree</u> that revised CO is appropriate at this time. 9/17/15 Corrective Action Plan submitted for review dated 9/4/15. Proposed POE at 2 locations where domestic use of water occurs. DDW approval of plan sent to system on 9/17/15;; 11/13/15 Q progress report submitted . 5/4/16 update: DDW approved use of POE arsenic treamten via letter dated 4/22/16 based on results of a pilot study & report. POE installed at two locations.	10/4/2016
7/29/15 update: Approval to operate arsenic treatment given 3/4/15. Current 4QRAA is 6.3 ug/L. Will RTC system eff 8/1/15.	8/1/2015

RAA < MCL - Treatment Installed (POU)
RAA < MCL - Treatment Installed
Arsenic concentrations in source water reduced over last 5 quarters.

P84 planning study completed. P84/SRF construction project underway.
P84 planning study completed. P84 construction project underway.
N/A
Privately owned Comm system.
Privately owned mobile home park.
State community college. Have given them the pre-application information and strongly recommended they apply for funding.
Privately owned NTNC.
One well with arsenic and nitrate violation
SRF planning loan application was determined to be incomplete over two years ago.
P84 construction funding application received for consolidation with Erskine Creek Water Company. 2/13/15 (JSD): Issue of eligibility of storage tank; storage tank designed is of 200,000 gallons but eligible capacity is 94,400 gallons. DAF issued a letter to ECWC about this; response recd 2/13/15 from ECWC is currently under review by DFA.

Construction of replacement well.
Purchased 2 wells that comply with As MCL.
Going from groundwater well to a surface water system
Tank slowly refilled with treated water and all sampling since the event have been below MCL. It will take several quarters for RAA to drop below MCL.
Drilled new well, but it exceeds Uranium MCL. Installed AdEdge arsenic treatment plant w/o plan approval. New treatment plant is installed, approved, and operational since April 2014.
Continue quarterly sampling to monitor arsenic levels and report in CCR.
Treatment installed and monitoring is in progress. May take several quarters for system to RTC because of RAA.
Consolidated with Arvin CSD in 06/2010 using ARRA funds
Water Company wants to install dual plumbed system-one for outside irrigation and one for domestic use with arsenic treatment
Consolidation with Erskine Creek Water Company

Construction project phased to first drill new well, then will install treatment of well does not meet As MCL.	12/11/2014
Wells purchased and online. System eligible to RTC based on 4QRAA. USEPA Administrative Order, so DDW cannot RTC via SDWIS.	11/1/2014
Currently in the process of reviewing the surface water system documentation and plans	9/18/2015
	4/1/2012
Current treated water running annual average is at 0.003 mg/L.	4/24/2015
System is currently still at 10 ug/L running annual average. They will continue to collect quarterly samples and provide sample data in their CCR's. All previous arsenic violations dating from 2007 to 2010 have been returned to compliance in SDWIS. There have been no arsenic MCL violations since 2010.	12/28/2015
	1/1/2012
System consolidated with Arvin CSD already.	6/30/2010
2/13/15 (JSD): RTC - using 100% AVEK water since 01/01/12. 5/29/15 (JSD): RTC as of 2/2/2015. 2/13/15 (JSD): RTC - using 100% AVEK water since 01/01/12	2/2/2015
5/29/15 (JSD): RTC as of 2/2/2015. 2/13/15 (JSD): RTC-Kernvale MWC's well is dry; emergency tie-in with Erskine Creek since 10/17/2013.	2/2/2015

New Well 6 meets Arsenic MCL. Wells 4 & 5 approved for STANDBY status.
Source(s) Abandoned
Converted over to a surface water treatment plant. Inspection was performed by the LPA to confirm construction was performed according to approved plans. A new State permit will be issued.
RAA < MCL - Treatment Installed
RAA < MCL - Treatment Installed. Running annual average is below the MCL, collecting monthly post treatment samples to verify compliance.
RAA < MCL - Natural Causes-No arsenic MCL exceedance since 2010. Previous violations have been returned to compliance but system is still collecting quarterly samples and including this data in their CCR.
RAA < MCL - Treatment Installed
PWS Inactive due to Consolidation
Using 100% AVEK water.
Using 100% water from Erskine Creek Water Company; Well 01 is dry.

No	SRF construction project for consolidation with Lost Hills Utilities District in progress

<p>10/05/15 (JSD): Supplier's Certificate of Project Completion dated 9/29/15 has been received. 100% inspection of the project by DDW and DFA staff was conducted on 09/29/15. Project completion certificate of DDW is under preparation.</p> <p>5/29/15 (JSD): Construction project is over 90% complete with estimated completion date of June 30, 2015.</p> <p>2/13/15 (JSD): P84 construction funding project in progress; 75% completed.</p>
<p>Using its own funds, Pinon Valley Water Company has installed arsenic removal treatment. Permit for the treatment was issued in January 2015.</p>
<p>Under RAA</p>
<p>Well 01 is in violation of the arsenic MCL, RAA 0.028 mg/L</p>
<p>Well 01 is in violation of the arsenic MCL, 3rd qtr. 2014 RAA 0.020 mg/L</p>
<p>Well 02 is in violation of the arsenic MCL, RAA 0.013 mg/L</p>

Drill a new well and arsenic removal treatment using adsorption
Arsenic removal treatment installed using hybrid ion exchange technology.
Proposal to provide POE arsenic removal treatment
Consolidation with Lost Hills Utility District
Too far away from City of Bakersfield for consolidation
Considering arsenic removal treatment.

10/05/15 (JSD): The new arsenic removal treatment plant is operating and the water system has been returned to compliance as of 09/30/2015. 5/29/15 (JSD): Construction of the arsenic removal treatment plant and Well 03 is almost complete. Commissioning of the treatment plant is in progress. 100% completion of the project is expected before June 30, 2015. 2/13/15 (JSD): A new well drilled to replace failed Well No. 1 and adsorption arsenic treatment being installed. Project completion deadline of May 21, 2016 according to the P84 funding agreement.	9/30/2015
10/05/15 (JSD): Arsenic treatment is operating successfully; returned the system to compliance as of 6/30/15. 5/29/15 (JSD): System expected to return to compliance in second Qtr. 2015. 2/13/15 (JSD): Expected to return to compliance during second quarter of 2015.	6/30/2015
3/7/16 RAA below MCL. Returned system to compliance in SDWIS. 11/15/2015-system is proposing to do blending. System only needs some infrastructure for blending - flowmeters and valving for regulating the blending. Submitted a permit amendment for blending. 10/15-2nd quarter arsenic not collected. System collected 3rd quarter but results not available.	3/7/2016
	12/31/2011
	12/31/2011
	10/31/2014
	12/30/2008
NEW VIOLATION ADDED TO LIST ON 07/29/10	7/23/2013
	12/31/2011
	10/29/2013

RAA < MCL - Treatment Installed-Arsenic removal treatment (using adsorption technology) has been installed. The treatment plant is adequate to achieve compliance with the arsenic MCL.

	4Q/2015 - Well under repair. Sampling not done.
No	3Q/2015 < 10

Well 01 is in violation of the arsenic MCL, RAA 0.027mg/L. Well 02 on quarterly monitoring & has not yet failed the MCL (avg. samples = 0.014 mg/L.)
Has SRF funding commitment;SRF project - NOAA
Construction FA issued for treatment at Garzoli Well
5/29/15 (JSD): P84 construction funding project complete as of 3/09/15. 2/13/15 (JSD): P84 construction funding project is almost 100% complete
Well 13 and Well 09A are in violation of the arsenic MCL, RAA 0.022 to 0.032 mg/L
Well 06 and Well 07 are in violation of the arsenic MCL, RAA of both wells in 0.014 mg/L

Will need to provide arsenic removal treatment.

Qtrly PN and sampling required

Installing arsenic treatment plant- Adsorptive media

2/2/15 (JSD): Phase 1 of P84 project included drilling a new well (Well 09) and Phase 2 of the project included construction of arsenic adsorption treatment plant and a new 750,000-gallon tank for blending of treated water and a portion of bypassed water from Well 09

Proposal already submitted to provide arsenic removal

Drilling new wells and proposal to provide arsenic.

	12/31/2011
	4/17/2015
	12/31/2009
<p>2/8/16- (TW): System has awarded contract for \$3.6 Mill. construction of arsenic treatment plant and storage tank. They did not use well from approximately 6/13 to 12/15. Used the well in early 2013 to pilot different media. Current RAA = 8.1 ppb. However, well only turned on to collect sample so - low sample results may be due to the well not being used and not representative of the arsenic level typically produced by the well when in use.. Construction bid awarded for \$3.3 Million with construction 12-18 months. System instructed to take 1st quarter 2016 arsenic sample-if below the MCL, the system may be returned to compliance. current CO dated 5/8/12 - directs them to minimized the use of the Garzoli well in the system. 11/15/2015- (TW): System going out to bid. Estimated construction 12-18 months. This system was not selected for a revised CO due to the timeframe of RTC. It does not fluctuate much as the range is typically 11-14 ppb. They have not been using the well (2013 and 14) as they did not need it however, they recently did need to start using again due to the capacity in the system. They were using the well in early 2013 for piloting of different media. They have recent results below the MCL, however, the well was not being used in the system and only turned on to collect sample. We believe the samples below the MCL are due to the well not being used and not representative of the arsenic level typically produced by the well when in use.. 8/4/2015 (TW): Construction application has been received and waiting for the Construction FA to go out to bid. Estimated FA issued Fall 2015 with Construction 12-18 months. This system was not selected for a revised CO due to the timeframe of RTC. It does not fluctuate much as the range is typically 11-14 ppb. They have not been using the well (2013 and 14) as they did not need it however, they recently did need to start using again due to the capacity in the system. They were using the well in early 2013 for piloting of different media. They have recent results below the MCL, however, the well was not being used in the system and only turned on to collect sample. We believe the samples below the MCL are due to the well not being used and not representative of the arsenic level typically produced by the well when in use.</p>	3/7/2016
<p>10/05/15 (JSD): Returned to compliance as of 6/30/15. 5/29/15 (JSD): P84 construction project is complete as of 3/06/15; arsenic removal treatment and blending treatment being provided. RTC expected in 2nd qtr. of 2015. 2/13/15 (JSD): P84 project is expected to be completed by end of February 2015.</p>	6/30/2015

BOTTLED WATER PROVIDED and Pending Consolidation with City of Hanford.

Qtrly PN and sampling required

Qtrly PN and sampling required

Qtrly PN and sampling required

Central treatment installed and operating as of May 2008.

Quarterly monitoring, public notice

Quarterly monitoring, public notice

camp currently closed as a result of operational problems; all users moved to Acton Rehabilitation Center

4/27/16: Received correspondence from the City of Hanford and the operator. The permit was processed and the connection is set to be final on 5/11/16. I have reported the information to Tricia Wathen. 3/10/2016: Anticipated to have the consolidation completed by 3/31/2016. They are currently in the process of laying the pipe and making the connection to the City of Hanford. The County sent the District the PO from corporate on the installation of water mains to connect to the City of Hanford. Cost is approximately \$95,000 and was dated 2/23/16. once construction is completed, the water system will be inactivated and RTC. 12/1/2015-Pending Consolidation with City of Hanford. Last update was obtained in October 2015. The system currently is supplied city water for their production but their domestic line remains to be connected. A revised CO will be issued if they do not consolidate by January 2016.	6/17/2016
	10/1/2014
12/12/2016 - FA has been executed. Project is underway. 9/16-Construction started on arsenic treatment plant - plan to be completed by April 17. Wells have currently been under the arsenic MCL since 2013. EPA rescinded the EPA AO for the system. 6/16-well drilled. Construction FA issued 3/16. 4/16-construction underway.	4/20/2016

Submitting Application for SRF
Invited to apply for Prop 84
Prop 84 Planning and Feasibility turned down because they did not want to consolidate. Plan to apply to SRF
Prop 84 Planning and feasibility FA issued
Not applicable
Preapplication submitted
Not applicable
Problem solved
Arsenic is above MCL in the only active well.
Problem solved
Problem solved

None. Just submitted application.
Arsenic treatment installed. Arsenic sample taken post treatment on 7/12/2011 is ND. Treatment has been online since 6/17/2011.
Evaluating consolidation, new source, treatment.
Consolidation Project/New Well/Treatment
Blending Successfully. Operation and Maintenance Plan Reviewed and Approved.
Blending treatment - introduction of a surface water source to further blend down the arsenic concentration in the water delivered to the customers.
Treatment installed and being commissioned in place.
Each service connection has a POU RO device which reduces the arsenic level to below 10 ug/L
Coagulation/filtration
System is non-communicative. LPA has been focusing on bacteriological monitoring violations.
Coagulation/filtration
Adsorptive media (GFH)

Currently they are blending to reduce arsenic levels with some success. They will need additional planning to address combined uranium and arsenic issues.	7/5/2013
	6/22/2011
8/02/2016 Permit Amendment was received to inactivate East Well from the water system. 4/28/2016 No status change from previous update. Public Notification Provided. West Well; currently has a 4 quarters RAA under the MCL, therefore has returned to compliance. However, east well still over MCL. East well is only standby, however. Still connected to system though.	11/5/2015
Arsenic running annual average since 1st quarter 2012 have been below the MCL. System has returned to compliance.	6/20/2014
System is working on consolidating with Hillview Water System	4/13/2010
Only seasonally use the well with Arsenic MCL exceedance. They blend during this time.	12/5/2014
No violation since 1st qtr. 2014. Updated 2/17/2015 - KDC	2/6/2015
	4/1/2009
Inherited from Merced County (LPA). The system has reliably produced water that complies with the arsenic MCL with the use of POU devices.	UNK - No action listed in SDWIS
Treatment on-line in 2008	1/1/2008
	3/25/1993
Primary well arsenic level jumped from 4 to 19 ug/L in 11/2008. Treatment on-line 12/23/2010	12/23/2010
Treatment on-line 5/7/2008	5/7/2008

City has submitted an application for funding thru SDWSRF.
P84-In construction to consolidate with CalAm Ambler Park system
Was in SRF, requested bypass
Upon approval by EHD, the plan shall be implemented and water served shall meet standards by 1/31/2010

The system has submitted a corrective action plan. They are exploring treatment options.

Point of Entry Treatment

Q. PON Bottled Water & As. As testing distribution 2x/mo. & 1x/mo. source

NOV issued w/ cc to CDPH and EPA

Recently drilled new well, water quality testing meets standards, undergoing testing to determine if water meets quantity standards. Q. PON As. Q. As testing

Invited to apply to SRF-planning to drill well, plan is to wait for granite ridge project and funding. Q.PON As.

NOV issued w/ cc to CDPH and EPA; system applied for funding; 2/23/09- Russ Hatch indicated that the system plans to go with an arsenic removal plant; also he said he is aware of the "shovel ready" funding application deadline and will apply; system remains on quarterly public notification; 2/25/10- system submitted application to State for conversion of SRF application for construction funds to planning funds

NOV ISSUED W/ CC TO CDPH & EPA

PON As, Q. As

Fe/Mn plant was modified to include As. Treatment. Q. PON As. Q. As testing

PN. Arsenic removal treatment installed & permit being processed.

6/29/2016: The treatment plant is installed and operational. As indicated, their treated water results are 5.1 ug/L. This system will be returned to compliance.Updated 9/29/2015 - KDC: Arsenic treatment plant being installed and should be operational by December 31, 2015. Per a law suit that was settled out of court, the City must be providing arsenic compliant water by 6/30/2016.	10/14/2016

System did not update its SRF application.
No SRF application
Safe Drinking Water State Revolving Fund Project NO 3301755-001. Final plans and specifications for consolidation planning project approved.

Arsenic treatment plant installed and operational.
The well has been reconstructed in an attempt to meet the As MCL. However, this was not effective. The water system has been pursuing consolidation with another nearby public water system, but has not yet been successful.
This well will be converted to emergency standby source.
2/18/2016. Filtering system was installed. First sampling results submitted on 3/16/2016. Results were non detect. A three month sampling to be conducted to evaluate proper function of sytem. 2/18/2016: Plans for filtering system were approved. Installation will take place 2/29/2016. 1/15/2016: Plans for a filtering treatment submitted. Original compliance plan submitted to LPA September 30th, 2010. Compliance plan was changed in 2014 to blending plan. Proposed solution was a blending plan which was approved by District Engineer and LPA 7/17/2015. Some efforts were made to implement plan, but was not implemented. On 10/23/2015 representative informed DEH that they will be looking into a filtering system. Plans will be submitted within the next week. 7/26/2016 Filtering system was installed. The system appears to be working. Last two quarters have been ND. The RAA is below the MCL. Returned to compliance on 7/27/16.
Interim treatment has been installed. Consolidation with Coachella Valley Water District Pending. CDPH has reviewed and approved plans, specifications, notice of exemption and agreement documents.
Tier 2 arsenic notifications issued. Owner has approved plans to downsize park and reclassify as a State Small with POU treatment. Construction of new park in progress

	3/8/2012
Under a federal EPA compliance order.	1/1/2012
	12/5/2013
	10/24/2012
<p>4/18/2016. Filtering treatment system has been installed, Two consecutive sampling sets a week a part were reported non- detect. sampling for 4 initial weeks and then monthly. DE required the running annual average of treatment to meet requirements before the system is returned to compliance. 1/15/2016: after evaluating levels of uranium and arsenic, operators decided to install a filtering system instead. The filtering system gave them more confidence to reach compliance. 2015: Tier 2 arsenic notifications issued quarterly. Well is sampled for arsenic quarterly. State engineer and LPA visited site in January 2015 to evaluate blending plan. Blending plan was approved, but system decided not to implement. System will be submitting plans for a filtering system with in one week. 7/26/2016 Filtering system was installed. The system appears to be working last two quarters have been ND. DE requested 4 to be below 10 before RTC. 7/26/2016 Filtering system was installed. The system appears to be working. Last two quarters have been ND. The RAA is below the MCL. Returned to compliance on 7/27/16.</p>	7/27/2016
Interim treatment station is providing water that meets arsenic MCL. Consolidation with CVWD pending.	8/6/2012

PN and quarterly monitoring required. Looking into

<p>9/23/15 - Action Plan was resubmitted. Submitting qtrly reports. ATEC has been hired to design a treatment plant. Plan is still to RTC the end of summer 2016. Should note that arsenic levels seem to be trending down, last two results were 10 and 7.1 ug/L. Based on RAA, system may no longer exceed MCL depending on 4th qtr. result. 7/2/2015 - Action Plan was submitted, District requested revisions by July 10, 2015. Based on the most recent progress report, the system is working with a vendor to scope and assemble the treatment plant, with the goal to RTC by end of summer 2016.</p> <p>4/15/15 - Conversation with Jan Sweigert - CO 05-14R-002 issued on 05/30/14 and amended 10/03/14. CO imposed a RTC deadline of 7/31/2016 and required a revised corrective action plan be submitted by 11/10/14.</p>	12/31/2015
	11/15/2010

No	3Q/2015 - 10.29

ON ASSISTANCE REFERRAL LIST I THINK

Funding project nearing completion. Arsenic treatment plant has been online since September 2014. Treated water meets the arsenic standard.

N/A

Applied for SRF for source capacity issues

Project to provide treatment on SRF-Project Priority List in Category L. (Needs to be changed to Category G.)

New owners. Revisiting permanent source of blend or consolidation.

Wrote violation letter. Response by system was to take well out of service and place in standby status.

PN required, existing treatment plant was re-engineered and construction was completed in September 2014.

Blending problematic w/ drought, so will be trying filtration soon

PN & qtrly monitoring.

The City has not used Well 13 since July 2008 and is considering submitting a request to change the well to emergency standby source status.

3/3/2016- DEs is positive Bella Vista has connected to Paso Robles Beach MWC. The water system needs to sign the declaration form saying they are no longer a water system and state the reason as they've connected to a permitted public water system, which should be named specifically. A letter was also sent a letter to the Paso Beach operator asking for documentation. Once we receive those documents, we will add it to the RTC list. 12/2015-Bella Vista is no longer blending, they are 100% purchasing water from Paso Beach. LPA has not seen the final contract so until they do, they don't want to inactivate the system. Kurt Souza says they are RTC because the water deal is going to happen. 6/2015-Hook up in progress to local CSA - Kurt S. advised to take of list. Until then they are blending.	3/21/2016
	12/31/2007
8/3/2015 (JD): PWS had their treatment on-line starting in September 2014. So the plant effluent is <10ppb but the RAA was > MCL as of the 1st quarter 2015. It is anticipated that after the 3rd qtr 2015 the RAA is < MCL.	11/6/2015
They were in compliance until the drought hit about the 3rd quarter last year. The system installed a gravity fed resin bed filter, which has been working and sampling monthly. The November 2015 sample is ND.	5/1/2015
	9/23/2009
	10/16/2012

Connection to Paso Beach water co., wells disconnected from domestic system.

[illegible]

Arsenic treatment facility.
Consolidate to City of Yuba City
12 POU's have been installed as interim measure. Drilled new well.
No decisions presented to CDPH.
No decisions presented to DPH. Providing vended w
No decisions presented to DPH, providing bottled w
No decision - interim bottled water being provided

<p>11/30/16 (MT/UTL) Ice pigging is complete. The project is essentially complete, but the contractor needs to complete the final punch list items and submit their final payment request.</p> <p>6/16/16 - Water line and facilities construction has been completed and inspected. Bacteriological contamination was found in newly constructed lines which has resulted in a delay. System is currently hooked to city water, but remains on public notification until Ice Piggying of the existing distribution lines is completed and bact testing completed. 6/16/16 - Water line and facilities construction has been completed and inspected. Bacteriological contamination was found in newly constructed lines which has resulted in a delay. System is currently hooked to city water, but remains on public notification until Ice Piggying of the existing distribution lines is completed and bact testing completed. 4/22/16 - Construction of supply line for purchased water is projected to be finished in the next couple of months. This department has issued a destruction permit for one of the exisitng sources. 11/2/2015-*Project has go out for bid awaiting construction schedule. Compliance order will be revised based on projected time frame for FA and construction. Awaiting response.</p>	9/26/2016
Treatment plant is installed and operational. RTC will be issued once RAA is below 0.010 mg/L. Water system has been returned to compliance based on an RAA below the MCL.	1/1/2015
Included in City of Yuba City Regional Prop 84 project. Awarded Prop 84 construction grant on 8/28/2013. Project in progress, expected to complete by 8/29/2016. <i>System now inactivated, consolidated to Yuba City</i>	2/18/2015
	11/1/2014
Trying to solve with local funds.	7/1/2010
	7/9/2009
System does not meet the definition of a PWS anymore; <25 people.	11/30/2010
RO treatment installed, RTC entry will be made in SDWIS. System has returned to compliance, RTC in SDWIS	1/17/2014
	7/30/2012

Consecutive connection and are purchasing water from the City of Ceres.

RAA at or below 8ug/L and treatment plant was installed.

PWS Inactive due to Consolidation

P84 project - construction

Bottled water permit. Using vended water.
Bottled water permit as temporary measure.
Not permitted at this time due to marginal results. Permit was issued 6/23/2009.
Received Prop 84 construction funding. Will construct new water intake away from source of arsenic.
Rehabilitate well or drill a new well.
Construct an arsenic treatment plant.
Analyze the potential to treat SW or drill a new well.
Consolidate with the City of Tulare.
Requiring PN and quarterly monitoring. Providing

absorptive treatment installed, RTC entry will be made in SDWIS. <i>System in Compliance and RTC entered in SDWIS</i>	1/17/2014

NO	3Q/2016 RAA - WELL #5 no calculation (blending treatment implemented).

New solution includes public notification on every sink and hose bib, bottled water delivery contract and map of water cooler locations, employee and visitor training to only use bottled water for consumption, and update to operations and maintenance manual which outlines these procedures.

SYSTEM INSTALLED POE & CRANMER ENGINEERING IS GETTING BIDS FOR INSTALLATION OF A TREATMENT UNIT.

SOLUTIONS WERE RESEARCHED, HOWEVER, FUNDING IS UNAVAILABLE. OWNER WILL REMOVE HOMES AND BRING THE POPULATION UNDER 25 BEFORE 12/31/2011.

	8/4/2014
	9/30/2009
THIS PACKING PLANT HAS SEEN DECLINING EMPLOYEE #S FOR THE PAST SEVERAL YEARS & HAS CONTACTED YCEH TO INACTIVATE THEIR SYSTEM. IN THE MEAN TIME, THEY ARE STILL MOVING FORWARD WITH RESEARCHING TREATMENT FOR BOTH ARSENIC & RADIOS.	2/1/2015
<p>3/4/2016: At this point Well #4 is offline and being assessed for compliance with the sanitary seal requirements. The PWS has a drilling/ repair company trying to put a 50 ft. seal so that Well#4 can be used to blend. We approximate 5 months for completion of this project, if Well#4 is successfully repaired and brought to today's well standards. 12/2015: ARESENIC LEVEL IN WELL #4 IS BELOW THE AL FOR ARSENIC. PROPOSED USING WELL#4 FOR BLENDING. WELL #4 NEEDS TO BE REPAIRED AND A SANITARY SEAL PROVIDED. INITIAL TESTING OF WELL WILL BE REQUIRED AND REVIEWED BEFORE APPROVAL OF WELL#4.</p> <p>5/9/2016: No status change from previous date. 07/12/2016: Initial blending results have shown Arsenic sample result of 5.0 ug/L (blended). Individual results for Well #4 - 0.11 ug/L; Well #5 - 14.0 ug/L. 09/06/2016: 2nd set of blending results have shown Arsenic sample result of 5.0 ug/L.</p>	7/19/2016
	1/1/2014

Source(s) Reclassification
Source Reclassification
LPA has a declaration from the water system that there are <25 employees working at the facility at least 6 months out of a year.
RAA < MCL - Treatment Installed BLENDING: WELL #4 & WELL #5
LPA changed population to reflect that the occupancy is <25 year long residents and re-classified the water system to a state small.
